SECTION B : SUMMARY

[10 marks]

Read the passage below and answer the question that follows.

To curb the spread of Influenza A (H1N1), the Health Ministry has come up with a set of guidelines. They have advised parents to take their sick children to the government hospitals for treatment without delay. Medical assistance given at an early stage will certainly be of great help.

Influenza A (H1N1) can be controlled if everyone practises personal hygiene. They must know the importance of washing their hands before eating and after using the toilet. This is a basic practice of cleanliness that we should all follow.

Some shops are not clean and have dirty surroundings. This could attract flies, cockroaches and rats. Such pests can cause diseases which are detrimental to health. Hence, the public is advised to avoid these dirty food outlets as well as those who fail to practise good hygiene in their food preparation. In addition, food handlers at eateries should also use plastic gloves and not their bare hands when handling food. They should also undergo food handling programmes conducted either by the local authority or a private initiative. This would help instill the importance of cleanliness when preparing food.

Always use a tissue or a handkerchief when you sneeze and do not forget to throw it away in the right place. If someone coughs or shows flu-like symptoms, please keep a good distance away from them as the virus can spread easily due to close proximity. Hence, care must be exercised at all times.

Write a summary on how to prevent and reduce influenza A (H1N1)

Your summary must :

- not be more than 60 words, including the 10 words given below
- be in continuous writing (not note form)
- be written in ONE paragraph

Use your own words as far as possible without changing the original meaning
Begin your summary as follows:

Influenza A can be curbed if everyone follows the set of
